

Please do not change the Indiana "NO CALL" laws.

My husband has cancer and he also has heart trouble. He sleeps a lot therefore, I do not make but very few calls out so they will not be returned and wake him up.

We use to receive approximately ten a week from different credit card companies, companies selling magazines, free storm siding and window places, just all kinds of calls. Give me's mostly.

Larry is currently out of work and I am just barely making ends meet with my income now. Sometimes I can't even do that.

So "PLEASE" don't do away with the no call list. It is of up most importance to keep it activated. Not only to my family, but hundreds of others in Indiana.

Thank You, for giving us a chance to clarify the importance of this law.

Sincerely,
Sharon Hisle
